

DOMAIN BACKUP SOLUTION (NAS)

RELIABLE BACKUP SOLUTION

Domain NAS provides centralized backup and data protection for your most valuable digital assets. All your files will be backed up to one centralized location where you can access them at any time. Domain NAS provides hardware and software solutions that will always automatically and continuously back up your data, giving you the peace of mind that your files are always safe and secure. Backing up and protecting your data has never been this easy.

Apply to :-

- All Kind of Domain System (Local / Web system & database)
- Others Documents : M. Office Docs, PDF, Picture Files

Benefits :-

- Secure backup : high-strength of hardware facilities
- Secure your digital data – others than your own devices & hardware
- Reduce hardware cost & manual backup frequency (space saving & compact)
- Automated Local Data Backup to Cloud : Daily Automatic Backup Process
- Double Data Protection for System & Database
- Central File Storage and Access
- Private cloud storage folder
